## WORK EXPERIENCE

### Full Stack Developer | Sparktech Agency | Dhaka, Bangladesh

October 2025 – Present

- Translating Figma designs into responsive, mobile-first user interfaces using Next.js and TypeScript.
- Building and maintaining reusable UI components to ensure codebase scalability and consistency.
- Connecting frontend applications with REST APIs for dynamic data fetching and state management.
- Collaborating with the team to perform minor backend API updates and bug fixes as required.
- Ensuring cross-browser compatibility and optimized performance for client-side projects.

### Frontend Developer | Bhuiyan Tourism | Dhaka, Bangladesh

April 2024 – September 2025

- Developed responsive interfaces for a travel platform using Next.js, Redux, and TypeScript.
- Improved user experience in flight search and booking modules, contributing to a 50% faster page load speed.
- Increased user engagement by 100% through intuitive UI/UX improvements and feature implementation.
- Worked closely with backend developers to integrate APIs and maintain a seamless data flow.

## KEY PROJECTS

### Nextrade (Team Project) | Real-time Trading Platform

[Live Site](#) | [Client Repo](#) | [Server Repo](#)

- Developed a real-time trading dashboard using Socket.IO to handle data for 100+ concurrent users.
- Implemented 10+ core features including Firebase Auth, admin dashboards, and real-time charting with Recharts.
- Managed server-side state using Tanstack Query and Axios for efficient data handling.

### Invento Wave | Inventory Management System

[Live Site](#) | [Client Repo](#) | [Server Repo](#)

- Created a full-stack inventory system with real-time product updates and search filters.
- Integrated Stripe Payment Gateway for secure transactions and Firebase for user authentication.
- Developed a robust Node.js/Express.js API to manage product data and stock levels in MongoDB.

## EDUCATION

### Bachelor of Arts (BA) in English

2023 – 2027 (Expected)

Ideal College, Dhaka (Affiliated with: National University)
